MANAGEMENT DISCUSSION AND ANALYSIS REPORT

(Within the limits set by Company's competitive position)

BUSINESS REVIEW**GENERAL ECONOMY**

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Nominal GDP for FY25 is estimated at Rs. 33.10 lakh crore (US\$ 3.8 trillion) with growth rate of 9.9%, compared to Rs. 30.12 lakh crore (US\$ 3.5 trillion) in FY24. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the second half of FY25. In FY25, India's exports stood at Rs. 37.31 lakh crore (US\$ 433.56 billion), with Engineering Goods (26.88%), Petroleum Products (13.86%) and electronic goods (8.89%) being the top three exported commodity. Rising employment and increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing.

In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable because of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

Market Size:

Real GDP for FY25 is estimated at Rs. 187.95 lakh crores (US\$ 2.2 trillion) with growth rate of 6.5%, compared to Rs. 176.51 lakh crore (US\$ 2.06 trillion) for FY24. As on Jan 2025, there are 118 unicorn startups in India, with a combined valuation of over Rs. 3.0 lakh crore (US\$ 354 billion). The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between same time periods. The Current Account Deficit (CAD) stood at Rs. 98,095 crore (US\$ 11.5 billion) for Q3 of FY25 as compared to Rs. 88,712 crore (US\$ 10.4 billion) in Q3 of FY24. This was largely due to increase in merchandise trade deficit.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

Recent Developments

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- The HSBC India Manufacturing PMI increased to 58.4 in April 2025, up from 58.1 in March 2025, based on preliminary estimates. This rise signifies improved operating conditions and represents the most rapid growth pace observed in the past year. Contributing factors include a notable surge in new export orders, which experienced their most significant increase in over fifteen years, alongside a faster expansion in overall new business activity.
- In Q1 CY25, private equity (PE) and venture capital (VC) investments stood at Rs. 1,16,861 crore (US\$ 13.7 billion) across 284 deals.
- India saw a robust 10.35% growth in passengers carried by domestic airlines at 431.98 lakh in FY25, from 391.46 lakh in FY24, according to the Directorate General of Civil Aviation (DGCA).
- As of April 18, 2025, India's foreign exchange reserves stood at Rs. 58,57,537 crore (US\$ 686.70 billion).
- India secured 39th position out of 133 economies in the Global Innovation Index 2024. India rose from 81st position in 2015 to 39th position in 2024. India ranks 3rd position in the global number of scientific publications.
- The gross GST (Goods and Services Tax) revenue collection stood at Rs. 1.84 lakh crore (US\$ 21.57 billion) in February 2025.

- Between April 2000–December 2024, cumulative FDI equity inflows to India stood at Rs. 89.88 lakh crore (US\$ 1.05 trillion).
- In February 2025, the overall IIP (Index of Industrial Production) stood at 151.3. The Indices of Industrial Production for the mining, manufacturing and electricity sectors stood at 141.9, 148.6 and 194.0, respectively.
- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) – Combined inflation was 3.34% in March 2025 against 4.85% in March 2024.
- Foreign Institutional Investors (FII) inflows in FY25 were close to Rs. 1.27 lakh crore (US\$ 14.89 billion), while Domestic Institutional Investors (DII) bought Rs. 6.00 lakh crore (US\$ 70.34 billion) in the same period.
- India's wheat procurement rose 34% YoY, reaching 22.36 MT as of April 28, 2025, with target of 31 MT in sight. Strong MSP, bonuses, and robust crop output boost sales to government agencies, ensuring food security and potential for open market intervention.

Government Initiatives

Over the years, the Indian government has introduced many initiatives to strengthen the nation's economy. The Indian government has been effective in developing policies and programmes that are not only beneficial for citizens to improve their financial stability but also for the overall growth of the economy. Over recent decades, India's rapid economic growth has led to a substantial increase in its demand for exports. Besides this, a number of the government's flagship programmes, including Make in India, Start-up India, Digital India, the Smart City Mission, and the Atal Mission for Rejuvenation and Urban Transformation, is aimed at creating immense opportunities in India. In this regard, some of the initiatives taken by the government to improve the economic condition of the country are mentioned below:

- According to a report by Wood Mackenzie in January 2025, India, the United States, and West Asia are expected to collectively add 100 Gigawatts (GW) of solar capacity by 2025, while China is anticipated to continue its leadership in the solar industry.
- In July 2024, the Ministry of Finance held the Union Budget and announced that for 2024-25, the total receipts other than borrowings and the total expenditure are estimated at Rs. 32.07 lakh crore (US\$ 383.93 billion) and Rs. 48.21 lakh crore (US\$ 577.16 billion), respectively.
- In February 2024, the Finance Ministry announced the total expenditure in Interim 2024-25 estimated at Rs. 47,65,768 crore (US\$ 571.64 billion) of which total capital expenditure is Rs. 11,11,111 crore (US\$ 133.27 billion).
- On January 22, 2024, Prime Minister Mr. Narendra Modi announced the 'Pradhan Mantri Suryodaya Yojana'. Under this scheme, 1 crore households will receive rooftop solar installations.
- On September 17, 2023, Prime Minister Mr. Narendra Modi launched the Central Sector Scheme PM-VISHWAKARMA in New Delhi. The new scheme aims to provide recognition and comprehensive support to traditional artisans & craftsmen who work with their hands and basic tools. This initiative is designed to enhance the quality, scale, and reach of their products, as well as to integrate them with MSME value chains.

- On August 6, 2023, Amrit Bharat Station Scheme was launched to transform and revitalize 1309 railway stations across the nation. This scheme envisages development of stations on a continuous basis with a long-term vision.
- On June 28, 2023, the Ministry of Environment, Forests, and Climate Change introduced the 'Draft Carbon Credit Trading Scheme, 2023'.
- From April 1, 2023, Foreign Trade Policy 2023 was unveiled to create an enabling ecosystem to support the philosophy of 'Aatmanirbhar Bharat' and 'Local goes Global'.
- To enhance India's manufacturing capabilities by increasing investment and production in the sector, the government of India has introduced the Production Linked Incentive Scheme (PLI) for Pharmaceuticals.
- Prime Minister's Development Initiative for North-East Region (PM-DevINE) was announced in the Union Budget 2022-23 with a financial outlay of Rs. 1,500 crore (US\$ 182.35 million).
- Prime Minister Mr Narendra Modi has inaugurated a new food security scheme for providing free food grains to Antyodaya Ann Yojna (AAY) & Primary Household (PHH) beneficiaries, called Pradhan Mantri Garib Kalyan Ann Yojana (PMGKAY) from January 1, 2023.

Road Ahead: -

India's economy grew by 6.2% in Q3 FY25. Signs of recovery are now visible, with growth expected to rise to 7.6% in Q4 FY25—indicating a possible turnaround in the coming months. India's comparatively strong position in the external sector reflects the country's positive outlook for economic growth and rising employment rates. India ranked 5th in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of FY24 highlighted the unwavering support the government gave to its capital expenditure, which, in FY24, stood 37.4% higher than the same period last year. In the Union Budget of FY26, capital expenditure took lead by steeply increasing the capital expenditure outlay by 10.0 % to Rs. 11.21 lakh crore (US\$ 131.42 billion) over Rs. 10.18 lakh crore (US\$ 119.34 billion) in FY25. Stronger revenue generation because of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

India's total exports of goods and services rose by 5.5% to a record Rs. 69.8 lakh crore (US\$ 820.9 billion) in FY25, compared to Rs. 65.8 lakh crore (US\$ 773.0 billion) in FY24.

With a reduction in port congestion, supply networks are being restored. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

BUSINESS AND INDUSTRY DEVELOPMENTS, OPPORTUNITIES & THREATS

OUTLOOK, OPPORTUNITIES AND THREATS

The principal focus areas of the company are money changing, remittance and pre-paid payment systems.

1. Foreign Exchange Business:

Your Company is designated Authorized Dealer (Category II) from Reserve Bank of India, for money changing which includes buying and selling of Foreign Exchange in retail as well as wholesale to individuals and corporate clients and various permissible Outward Remittance activities such as remittance for overseas education, medical treatment abroad, emigration and emigration consultancy fees and for other permissible purpose.

The company continues to steadily grow and be profitable on an ongoing basis. The Company has added many new clients and done several strategic businesses tie ups to increase market share and Transcorp received a Recognition Award from Thomas Cook Forex Cards Division for its Superlative Performance.

Performance at a glance:

Profitability

Q4'FY25 highlights

Profit Before Tax (PBT) for Q4 FY25 rose 122% YoY to ₹114.04 Lakhs, compared to ₹51.54 Lakhs in Q4 FY24.

Profit After Tax (PAT) for Q4 FY25 stood at ₹128.16 Lakhs, up from ₹103.51 Lakhs in Q3 FY25 and ₹12.55 Lakhs in Q4 FY24.

FY ended March 25 highlights.

Full-year PBT surged more than 3x YoY, reaching ₹345.10 Lakhs, up from ₹108.54 Lakhs in FY24.

2. Setting up and operating payment systems:

The company's Payments Division added that the Payments Systems division of the Company, which includes the Prepaid Payment Instruments (PPI) license continues to flourish with tremendous growth in transaction volumes and issuance. The company has over 40 lac instruments issued, and transaction volumes compared to the last fiscal year have grown by over 500%. With a progressive regulatory framework from Reserve Bank of India, which is empowering PPIs with additional authorizations, the Payments Systems division is a sunrise business with immense lucrative opportunities which will also digitally and financially empower the nation. The Company continues to work closely with payment networks, strategic partners, and the Apex regulator to steadily compound the growth of the business.

Company has become the first non-Bank in India for various activities including:

1. First non-Bank to go live with network cards (Rupay)
2. First non-Bank to get RBI approvals for co-branding.
3. First (and currently only) non-Bank live on the VISA network
4. CKYC and Video KYC

5. First issuer to go live with contactless wearables (rings) and biometric cards
6. Preferred partners for Rupay and VISA for co-branding programs and any new product innovation
7. Only non-Bank offering cash withdrawals.

Company works selectively with marquee clients to deliver full stack co-branded card programs which bundles licensing & technology- the only non-Bank offering this in India. Company powers co-branded prepaid cards and wallets for leading fintech companies, lenders, aggregators, industry giants and startups using its unique licensing and platform bundle.

Company's PPI platform is being used for many kinds of payouts including merchant settlements, commission/incentives, gifts, loans, salaries, expenses/meals. In addition to tax benefits, payouts on these cards give visibility on customer spend patterns and data analytics to optimize marketing. In April 2021, Reserve Bank of India has strategically broadened the scope of services for PPIs - allowing cash withdrawals and other financial products to enabling Transcorp to provide offerings akin to a traditional Bank. These changes include offering and settling NEFT/RTGS transactions and cash withdrawals from the ATM.

Transcorp is proud to announce several significant achievements in Financial Year 2024-25, highlighting our commitment to growth, innovation, and delivering exceptional value to our stakeholders.

- Successful completion of the Test Phase under RBI's 'On Tap' Regulatory Sandbox for the theme "Retail Payments", marking a significant stride toward offline digital payment innovation.
- Over 5 million Prepaid Payment Instruments (PPIs) issued in India.
- Participation in the 46th UNESCO World Heritage Event, promoting the use of "UPI One World" wallets to facilitate seamless cashless transactions for international visitors and NRIs.

INDEPENDENT AUDITORS' REPORT

To the Members of
Transcorp International Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the Standalone Financial Statements of Transcorp International Limited ("the Company"), which comprise the Standalone Balance Sheet as at 31 March 2025, and the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Cash Flows and the Standalone Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of the material accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at 31 March, 2025, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

1. We invite attention to Note No 61 standalone financial statements regarding prepaid instrument transactions in which the amounts related to successful IMPS transactions involving 189.87 lacs were erroneously credited back to customer wallets due to failure of software in decrypting the API responses received, company being able to recover Rs. 95.27 lacs so far and booking loss of RS. 23 lacs on this account during the year out of balance amount for which recovery process is on. Our opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S. No.	Description of Key Audit Matter	How our audit addresses the Key Audit Matter
1.	<p><u>Recognition of trading income: -</u> Trading income inter alia includes the margin generated from foreign currency spreads on the purchase and sale of foreign currency. Trading income is presented inclusive of realized and unrealized income earned from sale of foreign currency contracts to customers.</p> <p><u>Why it is identified as Key Audit Matter</u> This has been considered as a key audit matter because it represents the most significant element of operating revenue and operating expenses in the Standalone Statement of Profit & Loss.</p>	<p>Our audit procedures included, among others, evaluating the design and performing tests over the operating effectiveness of relevant key revenue controls, including reconciliation controls between the transaction recording system, general ledger and bank statements.</p> <p>Our audit approach was a combination of test of controls and substantive procedures which include the following:-</p> <ul style="list-style-type: none">• Deciding sample of Sale and Purchase of forex transactions.• Checked the sample transactions derived with supporting documents relating to sale and purchase of foreign currency• Performed tests over the operating effectiveness of key reconciliation controls between the transaction recording system and general ledgers

2	<p><u>Valuation of deferred tax assets</u></p> <p>The Company's assessment of the valuation of deferred tax assets, resulting from temporary differences, is significant to our audit as the calculations are complex and depend on sensitive and judgmental assumptions. These include, amongst others, long-term future profitability, compliance of Income tax Act, 1961 and the Income Tax Rules, 1962 framed there under and new developments., and company adopting new tax regime during the immediately preceding year .Hence, it is considered as a Key Audit Matter. The Company's disclosures concerning deferred taxes are included in Note No.20 to the standalone financial statements.</p>	<p>Our audit procedures included, among others, procedures on the completeness and accuracy of the deferred tax assets recognized. We assessed the applicable provisions of the Income Tax Act and the Rules framed there under and developments, in particular, those related to changes in the statutory income tax rate, since, this is a key assumption underlying the valuation of the deferred tax assets. In addition, we also focused on the adequacy of the Company's disclosures on deferred tax assets and assumptions used/ judgment taken by the management.</p>

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director Report and Corporate Governance Report but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement of this other information; we are required to report that fact.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian

Accounting Standards) Rules, 2015 as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements, that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

A further description of our responsibilities for the audit of the Standalone Financial Statements is included in Appendix -1 of this auditor's report.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the said Order.
2. As required by Section 143(3) of the Act, we report that:
 - i. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Appendix -1

(Referred to in 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' paragraph of the Independent Auditors' Report)

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate Internal Financial Controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE 2 TO THE INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Transcorp International Limited on the Standalone Financial Statements for the year ended 31 March 2025

Report on the Internal Financial Controls with reference to Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls with reference to Standalone Financial Statements of Transcorp International Limited ("the Company") as of 31st March 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls with reference to Standalone Financial Statements based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial

Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial control with reference to Standalone Financial Statements included obtaining an understanding of internal financial control with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A Company's internal financial control with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to Standalone Financial Statements includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial controls with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Standalone Financial Statements and such internal financial controls with respect to Standalone Financial Statements were operating effectively as at 31 March 2025, based on the internal controls over financial reporting criteria established by the Company considering the components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

IV) Risk exposure

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such company is exposed to various risks as follows -

- A) Salary Increases- Actual salary increase will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
- B) Investment Risk – If Plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.
- C) Discount Rate : Reduction in discount rate in subsequent valuations can increase the plan's liability.
- D) Mortality & disability – Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.
- E) Withdrawals – Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

44 Disclosure as per Ind AS 108: Operating Segments

The company is engaged in the business of Forex and Remittances and hence there is no other separate reportable segment within the criteria defined under Ind AS-108 Operating Segments. Although Segment Reporting for the group is given in Consolidated Financial Statement.

45 Disclosure as per Ind AS 107: Financial Instruments

Financial Risk Management

The Company’s principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to manage finances for the Company’s as well as of it's wholly owned subsidiary's operations. The Company has advances and other receivables, trade and other receivables, and cash and short-term deposits that arise directly from its operations. The Company also enters into derivative transactions.The most significant financial risks to which the Company is exposed to are described as follows:-

45.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial/paid instrument/foreign exchange will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as investment price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits,investments, and derivative financial instruments. This is based on the financial assets and financial liabilities held as at March 31, 2025 and March 31, 2024.

45.2 Credit risk

Credit risk is the risk that a counter party/client will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

45.3 Liquidity risk.

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

45.4 Physical risk.

2. Credit risk

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categorizes a loan or receivable for write off when a debtor fails to make contractual payments greater than 3 years past due and management is of the opinion that all the possible efforts have been undertaken for recovery but the recovery is not possible. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit and loss.

The Company across all the divisions avoid business having risk of delayed payments, even at the cost of Top-line growth.

Company is having a system of online follow-up on daily basis to avoid the delay in payments.

Strict watch is being maintained on cheque bouncing instances and if there is any bouncing from the client , more precautions are taken.

A Credit Policy is placed on the system with dynamic updation as per market considerations. Continuous efforts are being made to avoid delay in payment. Client

Money Receivable for Money changing business is being checked on daily basis by Compliance Officer, Manager Operations. Credit appraisal process and know your customer norms are being followed prior to giving credit.

Trade Receivables

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings for extension of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and Industries and operate in largely Independent markets.

Investments

The Company limits its exposure to investments by investing in only counter parties after consideraing all the relavent factors. The management actively monitors the interest rate and maturity period of these investments. The Company does not expect the counter party to fail to meet its obligations, and has not experienced any significant impairment losses in respect of any of the investments.

Cash and cash equivalents

The Company held cash and cash equivalents of Rs. 524.48 Lakh (31 March 2024: Rs. 573.93 Lakhs). Bank balances out of cash and cash equivalents are held with banks with high rating.

(i) Exposure to Credit Risk

iii. Financial instruments and cash deposits

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances and deposits are maintained. Generally, the balances are maintained with the institutions with which the Company has also availed fund and non fund based financial facilities. The banks are also chosen as per the geographical and other business conveniences and needs.

The Company maintain significant cash and deposit balances which is required for its day to day operations.

3 Liquidity Risk

The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

The Company is required to maintain ratios (including total debt to EBITDA /net worth, EBITDA to gross interest, debt service coverage ratio and secured coverage ratio) as mentioned in the loan agreements at specified levels. In the event of failure to meet any of these ratios these loans become callable at the option of lenders, except where exemption is provided by lender.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Level 1 hierarchy includes financial instruments measured using quoted prices. This Includes listed equity instruments that have quoted price. Listed and actively traded equity instruments are stated at the last quoted closing price on the National Stock Exchange of India Limited (NSE).

Level 2- The fair value of financial instruments that are not traded in active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of the financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments. This level includes foreign exchange forward contracts and investments in unquoted equity instruments.

There has been no transfer in either direction in this year or the previous year.

c) Valuation technique used to determine fair value:

Specific Valuation techniques used to fair value the financial instruments include:

(i) For Financial instruments other than at (ii) ,(iii) and (iv) - the use of quoted market prices.

(ii) For investments in Mutual Funds- Closing NAV is used

(iii) For Financial liabilities (public deposits, long term borrowings) Discounted Cash Flow; appropriate market borrowing rate of entity as on each balance sheet date used for discounting,

(iv) For financial assets (loans) discounted cash flow; appropriate market browing rate of the entity as on each balance sheet date is used for discounting.

d) Fair value of financial assets and liabilities measured at amortized cost

59 During **earlier** year company initiated the process for composite scheme of arrangement between Transcorp Estates Private Limited, Transwire Forex Limited, Transcorp Payments Limited and their respective shareholders and creditors. The appointed date for the arrangement as per scheme is 1st April 2022. Bombay Stock Exchange has communicated to company by returning the scheme that activities of the company proposed to be demerged are predominantly regulated by RBI and as such requested to refile the same with stock exchange after receipt of NOC/ Clearance from the principal regulator. Company has not so far received NOC/ Clearance from the principal regulator.

60 Previous Year's figures have been regrouped, rearranged or recasted wherever considered necessary.

Company had during the quarter ended 31.12.2024 noticed that in respect of its prepaid instrument transactions the amounts related to successful IMPS transactions involving 189.87 lacs were erroneously credited back to customer wallets due to failure of software in decrypting the API responses received. Company immediately took the necessary steps and has so far received back a sum of Rs.95.27 lacs from respective remitters. Process of recovering the balance amount is on and company expects that it will receive back most of it. Company as per its best estimate booked a loss of Rs. 23 lacs(around 25% of balance amount) being possible shortfall in recovery.

A. Reporting entity

Transcorp International Limited is a Public Company domiciled in India and limited by shares (CIN: L51909DL1994PLC235697). The shares of the Company are publicly traded on Bombay Stock Exchange Limited. The address of Company's registered office is Plot No. 3, HAF Pocket, Sector 18A Near Veer Awas, Dwarka Phase II, New Delhi - 110075. The Company is primarily involved in the business of money changing, money transfer and prepaid instruments i.e. Financial Services. These activities are carried on under the permission granted by RBI.

B. Basis of preparation

1. Statement of Compliance

These standalone financial statements are prepared on going concern basis following accrual basis of accounting and comply with Indian Accounting Standards (hereinafter referred to as the "Ind AS") as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (the 'Act') read with the Companies (Indian Accounting standards) Rules, 2015 as amended.

These financial statements were authorized for issue by Board of Directors on 13th May, 2025

2. Basis of measurement

The financial statements have been prepared on historical cost convention and following material items which have been measured at fair value as required by IND AS-

- Defined benefit plans- Plan assets measured at fair value
- Certain financial assets and liabilities measured at fair value

3. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is the Company's functional currency.

4. Current and Non Current Classification

The company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when it is:

- Expected to be settled in normal operating cycle,
- Held primarily for the purpose of trading,
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred Tax asset/liabilities are classified as non-current.

C. Material accounting policies

A summary of the material accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the financial statements. The Company had elected to utilize the option under Ind AS 101 by not applying provision of Ind AS 16, Ind AS 38 & Ind AS 40 retrospectively and continue to use the Indian GAAP carrying amount as deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of property, plant and equipment, Investment Property and Intangible Assets as at 1 April 2016, the Company's date of transition to Ind AS, according to the Indian GAAP were maintained in transition to Ind AS.

1. Property, plant and equipment

1.1 Initial recognition and measurement

An item of PPE is recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the company and the cost of item can be measured reliably.

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

1.2 Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that the future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

1.3 Depreciation

Assets are depreciated using straight line method over the estimated useful life of the asset as specified in Part "C" of Schedule II of Companies Act, 2013 after

retaining residual life of 5% of original cost. Assets residual values and useful lives are reviewed at each financial year end considering the physical condition of the assets.

The useful lives of the property, plant and equipment are as follows:

- | | | |
|------------------------|---|----------|
| • Furniture & Fixtures | - | 10 years |
| • Office equipment | - | 5 years |
| • Buildings | - | 60 years |
| • Vehicles | - | 8 years |
| • Computers | - | 3 years |
| • Air conditioners | - | 5 years |

1.4 De-recognition

Property, plant and equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

2. Investment Property

2.1 Initial Recognition

Investment properties comprise portions of Leasehold land and office building that is held for long term rental yields and/or for capital appreciation. Investment Property is recognized only when it is probable that the future economic benefits that are associated with the investment property will flow to the company as the cost of the investment property can be measured reliably.

Investment properties are initially recognised at cost. Subsequently investment property comprising of building is carried at cost less accumulated depreciation and accumulated impairment losses.

2.2 Depreciation

The depreciation on building is calculated using the straight line method over the estimated useful life of building of 60 years as specified in Schedule II to the Companies Act, 2013. The residual values, useful lives and depreciation method of investment properties are reviewed, and adjusted on prospective basis as appropriate, at each financial year end. The effects of any revision are included in the statement of profit and loss when the changes arise.

2.3 De-recognition

Investment properties are de-recognised when either they have been disposed off or when the investment property is permanently withdrawn from use and no future economic benefits is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the statement of profit and loss in the period of de-recognition.

3. Intangible assets

3.1 Initial Recognition & measurement

Identifiable intangible assets are recognized

- When company controls the asset
- It is probable that future economic benefits will flow to the company
- The cost of the asset can be reliably measured

Intangible assets comprise Computer Software that is purchased for business operations of the company. Intangible assets that are acquired by the Company, which have finite useful lives, are recognized at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make assets ready for its intended use.

3.2 Subsequent Cost

Subsequent expenditure is recognised as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

3.3 Amortization

Intangible assets are amortized on straight line method basis as per the methodology provided and useful life of the asset mentioned in Schedule II of the Companies Act, 2013. Useful life of computer software is 6 Years. Amortization of intangible assets is included in the head depreciation & amortization expenses in the statement of profit & loss.

3.4 De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

4. Inventory

Inventories are valued at the lower of cost and net realizable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. As company's inventory includes Foreign Currency and paid documents, net realizable value is calculated using exchange rate prevailing at the end of accounting year.

5. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash on hand, cash at banks and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

6. Assets Held for Sale

Non-current assets and disposal group are classified as "Held for Sale" if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of "Held for Sale" is met when the non-current asset or the disposal group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as "Held for Sale". Non-current assets and disposal group held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets and disposal group that ceases to be classified as "Held for Sale" shall be measured at the lower of carrying amount before the non-current asset and disposal group was classified as "Held for Sale" adjusted for any depreciation/ amortization and its recoverable amount at the date when the disposal group no longer meets the "Held for sale" criteria.

7. Foreign currency transactions and translation

Purchases and sales of foreign currencies and traveller's cheques are accounted at the contracted rates. Other transactions in foreign currencies are initially recognised at functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in Statement of profit and loss in the year in which it arises.

8. Borrowing costs

Borrowing costs specifically relating to the acquisition of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing cost consists of interest and other cost that the company incurs in connection with the borrowing of funds.

All other borrowing costs are recognized in the Statement of Profit and Loss as expense in the period in which they are incurred.

9. Income Taxes

Income tax expense comprises current and deferred tax. Current tax expense is recognized in Statement of Profit and Loss A/c except to the extent that it relates

to items recognized directly in other comprehensive income or equity, in which it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current income taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in Statement of Profit and Loss A/c except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Minimum Alternate Tax credit is recognized as asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period. . **As company has opted for new tax regime under section 115BAA of Income Tax Act, 1961, no MAT is paid and no provision for the same is made.**

10. Share Based Payments

Share based payments Equity-settled share based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in

Statement of Profit and Loss such that the cumulative expenses reflects the revised estimate, with a corresponding adjustment to the Share Based Payments Reserve.

11. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the notes to the financial statements. Contingent liabilities are disclosed on the basis of judgment of management/ independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent Assets are possible assets that arise from past events and whose existence will be continued only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgement of management. These are assessed continually to ensure that developments are appropriately reflected in financial statements.

12. Revenue

The Company derives revenues primarily from business of money changing and money transfer.

Effective April 1, 2018, the Company adopted Ind AS 115 “Revenue from Contracts with Customers” using cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018.

Under Ind AS 115, Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue is measured at the fair value of the consideration received or receivable and taking into account contractually defined terms of payment.

Company's revenues from sale of traded goods is recognized when transfer of control of the goods have been passed to the buyer, usually on delivery.

Revenue from services is recognized on rendering the services.

Revenue from other income comprises interest from banks and body corporates, dividend from long term investments, profit on sale of Property, Plant and equipment, Capital gains on debt funds ,other miscellaneous income, etc.

Interest income is recognized, when no significant uncertainty as to measurability or collectability exists, on a time proportion basis taking into account the amount outstanding and the applicable interest rate, using the effective interest rate method (EIR).

Revenue from rentals and operating leases is recognized on an accrual basis in accordance with the substance of the relevant agreement.

Dividend income is recognized in profit or loss on the date when the Company's right to receive payment is established.

13. Leases

The Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The company as a Lessor:

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a systematic basis according to contract of the relevant lease.

14. Employee benefits

14.1. Short term Employee Benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are booked as an expense as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

14.2. Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two types:

14.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive obligation to pay further amounts. ESI payments and Family Pension Funds are Defined Contribution Plans in which company pays a fixed contribution and will have no further obligation.

14.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Company pays PF to Provident fund Trust and as such it is a defined benefit plan. Additional contribution obligation is considered on receipt of demand from the Trust.

Company pays Gratuity as per provisions of the Gratuity Act, 1972. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Company's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the company, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses in respect of gratuity are recognized in OCI in the period in which they arise.

15. Dividends:

Dividends and interim dividends payable to a Company's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

16. Material prior period errors:

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

17. Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

18. Cash Flow Statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

19. Impairment of Non-Financial Assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount (higher of its fair value less costs to disposal or its value in use) is estimated.

An impairment loss is recognized if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount which is only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

20. Financial Instruments

20.1 Financial Assets

Initial Recognition and measurement

The company recognises financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognised at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value through profit or loss, are added to the fair value on initial recognition.

Subsequent measurement

Equity Investments

All equity investments in entities other than subsidiaries and joint ventures are measured at fair value. Equity instruments which are held for trading are classified as at Fair Value through Profit and Loss. For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income or fair value through profit and loss. The

Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at fair value through other comprehensive income, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Investment in Subsidiary

Equity investments in subsidiaries and joint ventures are measured at cost, as cost represents the appropriate estimate of fair value in case of these investments.

As on the date of transition, the company measured the investment in subsidiaries at previous GAAP carrying amount being deemed cost in accordance with para D15 of Ind AS 101- First Time adoption of Ind AS.

De-recognition of financial assets

A financial asset (or where applicable, a part of a financial asset or a part of a company of similar financial assets) is primarily derecognized (i.e. removed from the company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either
 - (a) The company has transferred substantially all the risks and rewards of the asset
 - (b) The company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

20.2 Financial Liabilities and Equity Instruments

Classification as debt or equity

An instrument issued by a company is classified as either financial liability or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Initial recognition and measurement

Equity instruments are any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless they are classified at fair value through profit and loss. The Company's financial liabilities include trade and other payables, borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

Subsequent measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortised cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. The Company has not designated any financial liability as at fair value through profit and loss

De-recognition of financial liability

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the

recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

21. Fair Value measurement

In determining the fair value of its financial instruments, the Entity uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to Note 47 (d) in for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

D. Use of estimates and management judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that may impact the application of accounting policies and the reported value of assets, liabilities, income, expenses and related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. The estimates and management's judgments are based on previous experience and other factors considered reasonable and prudent in the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

1. Useful life of property, plant & Equipment

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. The useful life of assets is determined in accordance with Schedule II of the Companies Act, 2013.

The company reviews at the end of each reporting date the useful life of Property, Plant and Equipment.

2. Provisions and Contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to

potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

3. Income Taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets/liabilities. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the standalone financial statements

4. Defined Benefit Plan

The cost of defined benefit plan and the present value of such obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

5. Impairment of Financial assets

The impairment Provisions for financial assets are based on assumptions about risk of default and expected loss rates. The company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

6. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

INDEPENDENT AUDITORS' REPORT

To
The Members of Transcorp International Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of Transcorp International Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), and its associate, which comprise the Consolidated Balance Sheet as at 31st March 2025, the Consolidated Statement of Profit and Loss (including other comprehensive Income), the Consolidated Statements of Cash Flows and the Consolidated Statement of Changes in Equity for the year then ended and notes to the Consolidated Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us and based on consideration of reports of the other auditor on separate financial statements of subsidiaries as referred to in sub - paragraph (a) of the 'other matters' paragraph below, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the consolidated state of affairs (financial position) of the Group and its associate as at 31st March, 2025, and its consolidated net profit (financial performance including other comprehensive income), its consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

Emphasis of Matter

1. We invite attention to Note No 60 standalone financial statements regarding prepaid instrument transactions in which the amounts related to successful IMPS transactions involving 189.87 lacs were erroneously credited back to customer wallets due to failure of software in decrypting the API responses received, company being able to recover Rs. 95.27 lacs so far and booking loss of RS. 23 lacs on this account during the year out of balance amount

Our opinion is not modified in respect of the above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S. No.	Description of Key Audit Matter	How our audit addresses the Key Audit Matter
1.	<p><u>Recognition of trading income: -</u> Trading income inter alia includes the margin generated from foreign currency spreads on the purchase and sale of foreign currency. Trading income is presented inclusive of realized and unrealized income earned from sale of foreign currency contracts to customers.</p> <p><u>Why it is identified as Key Audit Matter</u> This has been considered as a key audit matter because it represents the most significant element of operating revenue and operating expenses in the Standalone Statement of Profit & Loss.</p>	<p>Our audit procedures included, among others, evaluating the design and performing tests over the operating effectiveness of relevant key revenue controls, including reconciliation controls between the transaction recording system, general ledger and bank statements.</p> <p>Our audit approach was a combination of test of controls and substantive procedures which include the following:-</p> <ul style="list-style-type: none">• Deciding sample of Sale and Purchase of forex transactions.• Checked the sample transactions derived with supporting documents relating to sale and purchase of foreign currency• Performed tests over the operating effectiveness of key reconciliation controls between the transaction recording system and general ledgers
2	<p><u>Valuation of deferred tax assets</u> The Company's assessment of the valuation of deferred tax assets, resulting from temporary differences, is significant to our audit as the calculations are complex and depend on sensitive and judgmental assumptions. These include, amongst others, long-term future profitability, compliance of Income tax Act, 1961 and the Income Tax Rules, 1962 framed there under and new developments., and company adopting new tax regime during the immediately preceding year .Hence, it is considered as a Key Audit Matter. The Company's disclosures concerning deferred taxes are included in Note No.20 to the standalone financial statements.</p>	<p>Our audit procedures included, among others, procedures on the completeness and accuracy of the deferred tax assets recognized. We assessed the applicable provisions of the Income Tax Act and the Rules framed there under and developments, in particular, those related to changes in the statutory income tax rate, since, this is a key assumption underlying the valuation of the deferred tax assets. In addition, we also focused on the adequacy of the Company's disclosures on deferred tax assets and assumptions used/ judgment taken by the management.</p>

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

V. (a) The final dividend proposed in the previous year, declared and paid by the holding Company during the year is in accordance with Section 123 of the Act, as applicable.

(b) interim dividends are declared and paid by the Holding Company and one subsidiary company during the year and until the date of this report , are in accordance with Section 123 of the Act, as applicable ,

(c) As stated in Note 17(H) to the consolidated financial statements, the Board of Directors of the Holding Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable

i) Based on our examination which included test checks and report of auditors of subsidiary companies not audited by us , the companies in the group have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the company as per the statutory requirements for record retention. However as one of the component of Consolidated Financial Statement i.e. associate is a firm and therefore audit trail provisions of the Act do not apply to that component.

2. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor’s Report) Order, 2020 (the “Order”/ “CARO”) issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor’s report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its subsidiaries included in the consolidated financial statements of the Company, to which reporting

Appendix -1

(referred to in 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' paragraph of the Independent Auditors' Report)

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group and associate has adequate Internal Financial Controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other

matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Transcorp International Limited on the Consolidated Financial Statements for the year ended 31 March 2025

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st march 2025 we have audited the Internal Financial Controls with reference to consolidated financial statements of Transcorp International Limited ("Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), , which are companies incorporated in India, and associate as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, and its subsidiaries, , which are companies incorporated in India, and associate , are responsible for establishing and maintaining internal financial controls with reference to Consolidated Financial Statements based on the internal controls over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the company's internal financial controls with reference to Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to Consolidated Financial Statements and their operating

effectiveness. Our audit of internal financial control with reference to consolidated financial statements included obtaining an understanding of internal financial control with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiaries, incorporated in India, and associate, in term of their reports referred to in the 'Other Matters' paragraph in main report, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to consolidated financial statements.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A Company's internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to consolidated financial statements includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial controls with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Holding Company and its subsidiaries, which are companies incorporated in India, and associate have, in all material respects, an adequate internal financial controls system with reference to Consolidated Financial Statements and such internal financial controls with respect to consolidated financial statements were operating effectively as at 31 March 2025, based on the internal controls over financial reporting criteria established by the Company considering the components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

Discount rate*	6.93%	7.22%
Expected rate of return on plan assets**	6.93%	7.22%
Salary escalation rate***	7.00%	7.00%
Valuation Methodology	Projected Unit Credit Method	Projected Unit Credit Method

* The discount rate assumed is 6.93% (P.Y. 7.22%) in case of holding company and 6.99% in case of subsidiary, which is determined by reference to market yield at the balance sheet date on government bonds.

** The expected rate of return on plan assets is determined considering several applicable factor mainly the composition of plan assets held, assessed risk of assets management and historical return from plan assets.

*** The estimates of future salary increase considered in actuarial valuation, taking account of inflation, seniority promotion and other relevant factors, such as supply and demand in the employment market

Demographic Assumption

Attrition rates are the company's best estimate of employee turnover in future determined considering factors such as nature of business & industry, retention policy, demand & supply in employment market, standing of the company, business plan, HR Policy etc as provided in the relevant accounting standard.

	31-03-2024	31-03-2025

Gratuity	23.95	3.05	14.92	114.10
Total	23.95	3.05	14.92	114.10

IV) Risk exposure

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such company is exposed to various risks as follows -

- A) Salary Increases- Actual salary increase will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
- B) Investment Risk - If Plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.
- C) Discount Rate : Reduction in discount rate in subsequent valuations can increase the plan's liability.
- D) Mortality & disability - Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.
- E) Withdrawals - Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

44 Disclosure as per Ind AS 107: Financial Instruments
Financial Risk Management

The Company's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables, and financial guarantee contracts. The main purpose of these financial liabilities is to manage finances for the Company's as well as of its wholly owned subsidiary's operations. The Company has advances and other receivables, trade and other receivables, and cash and short-term deposits that arise directly from its operations. The Company also enters into derivative transactions. The most significant financial risks to which the Company is exposed to are described as follows:-

44.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial/paid instrument/foreign exchange will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as investment price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments. This is based on the financial assets and financial liabilities held as at March 31, 2024 and March 31, 2023.

44.2 Credit risk

Credit risk is the risk that a counter party/client will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

44.3 Liquidity risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

44.4 Physical risk

Physical risk is the risk of theft or robbery or fakeness of cash and cash equivalents, leading to a financial loss. Fake currencies and loss by theft (if not recovered from insurance) are provided in the P&L A/c. The company provides training to staff for recognizing the valid currency and has taken adequately insurance coverage for covering loss which may be incurred by company due to theft and robbery.

Risk Management framework

The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance. The Company uses derivative financial instruments to hedge certain risk exposures. The Company does not acquire or issue derivative financial instruments for trading or speculative purposes.

Risk management is carried out by the risk management team under policies approved by the board of directors and consultants. The risk management team identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The board provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, and credit risk, use of derivative financial instruments and non-derivative financial instruments, physical risk and investment of excess liquidity.

Financial Risk Management

44A Market risk

i. Interest Rate Risk:

Interest rate risk is the risk that the fair value of the future cash flows of the financial instrument will fluctuate because of changes in market interest rates. The company only have fixed interest rate financial instruments. The company is not exposed to interest rate risk as it does not have any floating rate instruments at the respective reporting periods.

Loan from others	-	-
Total	1,938.67	1,997.70

Fair Value sensitivity analysis for fixed rate instruments

The company's fixed rate instruments are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

ii. Currency Risk

The Company operates in the business of money exchange including outward remittance and inward remittance and major portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its services in various foreign currencies.

Foreign currency exchange rate exposure is partly balanced by services in the respective currencies.

The Company evaluates exchange rate exposure arising from foreign currency transactions and the Company follows established risk management policies, including the use of derivatives like foreign exchange forward contracts to hedge exposure to foreign currency risk.

2. Credit risk

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. The Company categorizes a loan or receivable for write off when a debtor fails to make contractual payments greater than 3 years past due and management is of the opinion that all the possible efforts have been undertaken for recovery but the recovery is not possible. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized in profit and loss.

The Company across all the divisions avoid business having risk of delayed payments, even at the cost of Top-line growth.

Company is having a system of online follow-up on daily basis to avoid the delay in payments.

Strict watch is being maintained on cheque bouncing instances and if there is any bouncing from the client more precautions are taken.

A Credit Policy is placed on the system with dynamic updation as per market considerations. Continuous efforts are being made to avoid delay in payment. Client Money Receivable for Money changing business is being checked on daily basis by Compliance Officer, Manager Operations. Credit appraisal process and know your customer norms are being followed prior to giving credit.

Trade Receivables

The Company extends credit to customers in normal course of business. The Company considers factors such as credit track record in the market and past dealings for extension of credit to customers. The Company monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and Industries and operate in largely Independent markets.

Investments

The Company limits its exposure to investments by investing in only counter parties after considering all the relevant factors. The management actively monitors the interest rate and maturity period of these investments. The Company does not expect the counter party to fail to meet its obligations, and has not experienced any significant impairment losses in respect of any of the investments.

Cash and cash equivalents

The Company held cash and cash equivalents of Rs.543.48 Lakhs (31 March 2024: Rs. 617.88 Lakhs). The cash and cash equivalents are held with banks with high rating.

(i) Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

(Rs. In Lakhs)

Particulars	31-03-2025	31-03-2024

Total	10,646.40	8,225.05

(ii) Provision for expected credit losses

(a) Financial assets for which loss allowance is measured using 12 month expected credit loss

The Company has assets where the counter-parties have sufficient capacity to meet the obligations and where the risk of default is very low. Accordingly, no loss allowance for impairment has been recognised.

(b) Financial assets for which loss allowance is measured using life time expected credit loss

Exposure to credit risk is to be shown in case where ECL or lifetime ECL is recognized .

Company is not separately tracking changes in credit risk of individual trade receivables and contract assets for the purpose of ECL as these do not contain significant financing component . Therefore company has choosen to calculate impairment under the simplified approach on trade receivables and contract assets as the impairment amount represents “lifetime” expected credit loss. Accordingly, expected credit loss is recognised on total receivables.

The ageing of trade receivable (on FIFO basis, except specifically identified) is as below:

i. Financial instruments and cash deposits

The Company considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances and deposits are maintained. Generally, the balances are maintained with the institutions with which the Company has also availed fund and non fund based financial facilities. The banks are also chosen as per the geographical and other business conveniences and needs. The Company maintain significant cash and deposit balances, which is required for its day to day operations.

3 Liquidity Risk

The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company relies on a mix of borrowings, capital infusion and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

The Company is required to maintain ratios (including total debt to EBITDA / net worth, EBITDA to gross interest, debt service coverage ratio and secured coverage ratio) as mentioned in the loan agreements at specified levels. In the event of failure to meet any of these ratios these loans become callable at the option of lenders, except where exemption is provided by lender.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Level 1 hierarchy includes financial instruments measured using quoted prices. This Includes listed equity instruments that have quoted price. Listed and actively traded equity instruments are stated at the last quoted closing price on the National Stock Exchange of India Limited (NSE).

Level 2- The fair value of financial instruments that are not traded in active market is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3- If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of the financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments. This level includes foreign exchange forward contracts and investments in unquoted equity instruments.
There has been no transfer in either direction in this year or the previous year.

c) Valuation technique used to determine fair value:

Specific Valuation techniques used to fair value the financial instruments include:

(i) For Financial instruments other than at (ii) ,(iii) and (iv) - the use of quoted market prices.

(ii) For investments in Mutual Funds- Closing NAV is used

(iii) For Financial liabilities (public deposits, long term borrowings) Discounted Cash Flow; appropriate market borrowing rate of entity as on each balance sheet date used for discounting.

(iv) For financial assets (loans) discounted cash flow; appropriate market borrowing rate of the entity as on each balance sheet date is used for discounting.

d) Fair value of financial assets and liabilities measured at amortized cost

TRANSCORP INTERNATIONAL LIMITED

CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2025

1. Group Information and Material Accounting Policies

A. Reporting entity

Transcorp International Limited is a Public Company domiciled in India and limited by shares (CIN: L51909DL1994PLC235697). The shares of the Company are publicly traded on Bombay Stock Exchange Limited. The address of Company's registered office is Plot No. 3, HAF Pocket, Sector 18A Near Veer Awas, Dwarka Phase II, New Delhi - 110075. These consolidated financial statements comprise the financial statements of the Company and its subsidiaries (referred to collectively as the 'Group'). The Group is primarily involved in the business of money changing money transfer and prepaid instruments i.e. Financial Services, tours & travels services.

B. Basis of preparation

1. Statement of Compliance

These Consolidated financial statements are prepared on accrual basis of accounting and comply with Indian Accounting Standards (hereinafter referred to as the "Ind AS") as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (the 'Act') read with the Companies (Indian Accounting standards) Rules, 2015 as amended.

These Consolidated financial statements were authorized for issue by Board of Directors on 13th May, 2025.

2. Basis of measurement

The Consolidated financial statements have been prepared on historical cost convention and following material items which have been measured at fair value as required by IND AS-

- Defined benefit plans- Plan assets measured at fair value
- Certain financial assets and liabilities measured at fair value

3. Functional and presentation currency

These Consolidated financial statements are presented in Indian Rupees (INR), which is the Group's functional currency.

4. Current and Non Current Classification

The group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when it is:

- Expected to be settled in normal operating cycle,
- Held primarily for the purpose of trading,
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

C. Material accounting policies

A summary of the material accounting policies applied in the preparation of the Consolidated financial statements are as given below. These accounting policies have been applied consistently to all periods presented in the Consolidated financial statements. The Group has elected to utilize the option under Ind AS 101 by not applying provision of Ind AS 16, Ind AS 38 & Ind AS 40 retrospectively and continue to use the Indian GAAP carrying amount as deemed cost under Ind AS at the date of transition to Ind AS. Therefore, the carrying amount of Property, plant and equipment, Investment Property and Intangible Assets as per the previous GAAP as at 1 April 2016, i.e., the Group's date of transition to Ind AS, were maintained in transition to Ind AS.

1. Basis of Consolidation:

The financial statements of Subsidiary Companies are drawn up to the same reporting date as of the Company for the purpose of consolidation.

1.1 Subsidiaries

Subsidiaries are all entities over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also

eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests (NCI) in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and consolidated balance sheet respectively.

NCI are measured at their proportionate share of the acquiree's net identifiable assets at the date of acquisition. Changes in the Group's equity interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognised in statement of profit or loss.

However till now company's subsidiaries are WOS and no NCI was there.

1.2 Associates

Subsidiary Company (Transcorp Estate Private Limited) has invested capital in partnership firm M/s Utkarsh in which it holds substantial influence by virtue of its share in profit being 46.2998%. Following Ind AS 28, this investment in capital of M/s Utkarsh has been accounted for using equity method. Share in the profit or loss of associate has been separately shown in Consolidated Statement of Profit and Loss and share in net assets of the associate has been shown separately in schedule of Investments as Non current Investments with excess of the entity's share of the net fair value of the investee's assets and liabilities i.e. book value as per the balance sheet of associate, over the cost of investment, is recognised directly in equity as capital reserve.

2. Property, plant and equipment

2.1 Initial recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

When parts of an item of property, plant and equipment have different useful lives, they are recognized separately.

2.2 Subsequent costs

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that the future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

2.3 Depreciation

Assets are depreciated using straight line method over the estimated useful life of the asset as specified in Part "C" of Schedule II of Companies Act, 2013 after retaining residual value of 5% of the original cost. Assets residual values and useful lives are reviewed at each financial year end considering the physical condition of the assets.

The useful lives of the property, plant and equipment are as follows:

- Furniture & Fixtures - 10 years
- Office equipment - 5 years
- Buildings - 60 years
- Vehicles - 6 to 8 years
- Computers - 3 years
- Air conditioners - 5 years

Depreciation on additions to/deductions from property, plant & equipment during the year is charged on pro-rata basis from/up to the month in which the asset is available for use/disposed.

Where the cost of depreciable assets has undergone a change during the year due to increase/decrease in long term liabilities on account of exchange fluctuation, price adjustment, change in duties or similar factors, the unamortized balance of such asset is charged off prospectively over the remaining useful life determined following the applicable accounting policies relating to depreciation/ amortization.

Where it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably, subsequent expenditure on a PPE along-with its unamortized depreciable amount is charged off prospectively over the revised useful life determined by technical assessment.

In circumstance, where a property is abandoned, the cumulative capitalized costs relating to the property are written off in the same period.

2.4 De-recognition

Property, plant and equipment are derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized in the statement of profit and loss.

3. Capital work-in-progress and Intangible assets under development

Capital work-in-progress/intangible assets under development are carried at cost, comprising direct cost, related incidental expenses and attributable borrowing cost. Advances given towards acquisition of Property, Plant and Equipment/ Intangible assets outstanding at each Balance Sheet date are disclosed under Other Non-Current Assets

4. Investment Property

4.1. Initial Recognition

Investment properties comprise portions of Leasehold land and office building that is held for long term rental yields and/or for capital appreciation. Investment properties are initially recognised at cost. Subsequently investment property comprising of building is carried at cost less accumulated depreciation and accumulated impairment losses.

4.2. Depreciation

The depreciation on building is calculated using the straight line method over the estimated useful life of building of 60 years as specified in Schedule II to the Companies Act, 2013. The residual values, useful lives and depreciation method of investment properties are reviewed, and adjusted on prospective basis as appropriate, at each financial year end. The effects of any revision are included in the statement of profit and loss when the changes arise.

4.3. De-recognition

Investment properties are de-recognised when either they have been disposed off or when the investment property is permanently withdrawn from use and no future economic benefits is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the statement of profit and loss for the period of de-recognition.

5. Intangible assets

5.1. Initial Recognition & measurement

Identifiable intangible assets are recognized

- When group controls the asset
- It is probable that future economic benefits will flow to the group

- The cost of the asset can be reliably measured

Intangible assets comprise Computer Software that is purchased for business operations of the group. Intangible assets that are acquired by the Group, which have finite useful lives, are measured at cost. Subsequent measurement is done at cost less accumulated amortization and accumulated impairment losses. Cost includes any directly attributable incidental expenses necessary to make assets ready for its intended use.

5.2. Subsequent Cost

Subsequent expenditure is recognised as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured reliably.

5.3. Amortization

Intangible assets having definite life are amortized on straight line method in their useful lives. Useful life of computer software is estimated at six years. Amortization of intangible assets is included in the head depreciation & amortization expenses in the statement of profit & loss.

5.4. De-recognition

An intangible asset is derecognized when no future economic benefits are expected from their use or upon their disposal. Gains and losses on disposal of an item of intangible assets are determined by comparing the proceeds from disposal with the carrying amount of intangible assets and are recognized in the statement of profit and loss.

6. Borrowing costs

Borrowing costs specifically relating to the acquisition of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized (net of income on temporarily deployment of funds) as part of the cost of such assets.

Borrowing cost consists of interest and other cost that the group incurs in connection with the borrowing of funds.

All other borrowing costs are recognized in the Statement of Profit and Loss as expense in the period in which they are incurred.

7. Inventory

Inventories are valued at the lower of cost and net realizable value. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

8. Cash and Cash Equivalents

Cash and cash equivalents in the consolidated balance sheet comprise cash on hand, cash at banks and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

9. Assets Held for Sale

Non-current assets and disposal group are classified as "Held for Sale" if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of "Held for Sale" is met when the non-current asset or the disposal group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as "Held for Sale". Non-current assets and disposal group held for sale are measured at the lower of carrying amount and fair value less cost to sell. Non-current assets and disposal group that ceases to be classified as "Held for Sale" shall be measured at the lower of carrying amount before the non-current asset and disposal group was classified as "Held for Sale" adjusted for any depreciation/ amortization and its recoverable amount at the date when the disposal group no longer meets the "Held for sale" criteria.

10. Foreign currency transactions and translation

Purchases and sales of foreign currencies and traveller's cheques are accounted at the contracted rates. Other transactions in foreign currencies are initially recognised at functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in statement of profit and loss in the year in which it arises.

11. Income Tax

Income tax expense comprises current and deferred tax (including MAT). Current tax expense is recognized in Consolidated Statement of Profit and Loss except to the extent that it relates to items recognized directly in other comprehensive income or equity, in which it is recognized in OCI or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted and as applicable at the reporting date, and any adjustment to tax payable in respect of previous years. Current income taxes are recognized under 'Income tax payable' net of payments on account, or under 'Tax receivables' where there is a debit balance.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax

liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred tax is recognized in Statement of Profit and Loss A/c except to the extent that it relates to items recognized directly in OCI or equity, in which case it is recognized in OCI or equity.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Minimum Alternate Tax credit is recognized as asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Group will pay normal income tax during the specified period. . **As group has opted for new tax regime under section 115BAA of Income Tax Act, 1961, no MAT is paid and no provision for the same is made.**

12. Share Based Payments

Share based payments, equity-settled share based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in Statement of Profit and Loss such that the cumulative expenses reflects the revised estimate, with a corresponding adjustment to the Share Based Payments Reserve.

13. Provisions Contingent Liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured

reliably. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group or a present obligation that arises from past events where it is either not probable that outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the notes to the Consolidated financial statements. Contingent liabilities are disclosed on the basis of judgment of management/ independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent Assets are possible assets that arise from past events and whose existence will be continued only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group. Contingent assets are disclosed in the Consolidated financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that the developments are appropriately reflected in Consolidated financial statements.

14. Revenue

Effective April 1, 2018, the Group adopted Ind AS 115 "Revenue from Contracts with Customers" using cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018.

Under Ind AS 115, Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those products or services.

Revenue is measured at the fair value of the consideration received or receivable and taking into account contractually defined terms of payment.

Group's Revenue is arising from Sale of Traded Currency i.e. foreign exchange services, sale of services like , Commision / service charges, business support services, ticketing, vehicle rentals, tours, hotels and allied activities and renting of properties.

Revenue from other income comprises interest from banks, dividend from long term investments, profit on sale of Property, Plant and equipment, other miscellaneous income, etc.

14.1. Revenue from Sale of Traded Currency i.e. foreign exchange services

Revenue from sale of traded currency i.e. foreign exchange services is recognized when transfer of control of the same have been passed to the buyer, usually on delivery

14.2. Revenue from Sale of Services

For services rendered to clients, the commission received from airlines (other than Productivity Linked Bonus, which is accounted when ascertainable), hotels etc., transport income and income on tours and other services (net of charges) are accounted for on completion of service.

The group collects goods and services tax and other taxes on behalf of the government and therefore, it is not an economic benefit flowing to the group. Hence, it is excluded from revenue.

Interest income is recognized, when no significant uncertainty as to measurability or collectability exists, on a time proportion basis taking into account the amount outstanding and the applicable interest rate, using the effective interest rate method (EIR).

Revenue from rentals and operating leases is recognized on an accrual basis in accordance with the substance of the relevant agreement.

Dividend income is recognized in profit or loss on the date when the Group's right to receive the same is established, which in the case of quoted securities is the ex-dividend date.

15. Leases

The Group as a lessee

The Group's lease asset classes primarily consist of leases for land and buildings. The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: (i) the contract involves the use of an identified asset (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease

incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Group as a Lessor:

Leases for which the Group is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a systematic basis according to contract of the relevant lease.

16. Employee benefits

16.1. Short term Employee Benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are booked as an expense as the related service is provided.

A liability is recognized for the amount expected to be paid under performance related pay if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

16.2. Post-Employment benefits

Employee benefit that are payable after the completion of employment are Post-Employment Benefit (other than termination benefit). These are of two types:

16.2.1. Defined contribution plans

Defined contribution plans are those plans in which an entity pays fixed contribution into separate entities and will have no legal or constructive

obligation to pay further amounts. ESI payments and Family Pension Funds are Defined Contribution Plans in which Group pays a fixed contribution and will have no further obligation. In respect of one subsidiary i.e. Ritco Travels and Tours Private Limited, PF payments are also defined contribution plans

16.2.2. Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

Parent Company pays PF to Provident fund Trust and as such it is a defined Benefit plan. Additional contribution obligation is considered on receipt of demand from the Trust.

Group pays Gratuity as per provisions of the Gratuity Act, 1972. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is based on the prevailing market yields of Indian government securities as at the reporting date that have maturity dates approximating the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a liability to the Group, the present value of liability is recognized as provision for employee benefit. Any actuarial gains or losses in respect of gratuity are recognized in OCI in the period in which they arise.

17. Operating Segments

In accordance with Ind AS 108, the operating segments used to present segment information are identified on the basis of internal reports used by the Group's Management to allocate resources to the segments and assess their performance. The Board of Directors is collectively the Group's 'Chief Operating Decision Maker' or 'CODM' within the meaning of Ind AS 108. The indicators used for internal reporting purposes may evolve in connection with performance assessment measures put in place.

Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate expenses, finance expenses and income tax expenses.

Revenue directly attributable to the segments is considered as segment revenue. Expenses directly attributable to the segments and common expenses allocated on a reasonable basis are considered as segment expenses.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

Segment assets comprise property, plant and equipment, intangible assets, trade and other receivables, inventories and other assets that can be directly or reasonably allocated to segments. Segment assets do not include investments, income tax assets, capital work in progress, capital advances, corporate assets and other current assets that cannot reasonably be allocated to segments.

Segment liabilities include all operating liabilities in respect of a segment and consist principally of trade and other payables, employee benefits and provisions. Segment liabilities do not include equity, income tax liabilities, loans and borrowings and other liabilities and provisions that cannot reasonably be allocated to segments.

18. Dividends

Dividends and interim dividends payable to a Group's shareholders are recognized as changes in equity in the period in which they are approved by the shareholders' meeting and the Board of Directors respectively.

19. Material Prior period error:

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated.

20. Earnings per share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the financial year.

Diluted earnings per equity share is computed by dividing the net profit or loss attributable to equity shareholders of the Group by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

21. Impairment of Non-Financial Assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment considering the provisions of Ind AS 36 'Impairment of Assets'. If any such indication exists, then the asset's recoverable amount (higher of its fair value less costs to disposal or its value in use) is estimated.

An impairment loss is recognized if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount which is only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

22. Cash Flow Statement

Cash flow statement is prepared in accordance with the indirect method prescribed in Ind AS 7 'Statement of Cash Flows'.

23. Financial Instruments

23.1. Financial Assets

Initial Recognition and measurement

The Group recognises financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognised at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition of financial assets, which are not at fair value through profit or loss, are added to the fair value on initial recognition.

Subsequent measurement

Equity Investments

All equity investments in entities other than subsidiaries and joint ventures are measured at fair value. Equity instruments which are held for trading are classified as at fair value through profit and loss. For all other equity instruments, the Group decides to classify the same either as at Fair value through other comprehensive income or fair value through profit and loss. The Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at fair value through other comprehensive income, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

De-recognition of financial assets

A financial asset (or where applicable, a part of a financial asset or a part of a group of similar financial assets) is primarily derecognized (i.e. removed from the group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or

- The group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either
 - (a) The group has transferred substantially all the risks and rewards of the asset
 - (b) The group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets.

For recognition of impairment loss on financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

23.2. Financial Liabilities and Equity Instruments

Classification as debt or equity

An instrument issued by a Group is classified as either financial liability or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Initial recognition and measurement

Equity instruments are any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless they are classified at fair value through profit and loss. The Group’s financial liabilities include trade and other payables, borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

Subsequent measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortized cost

After initial measurement, such financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking

into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the profit or loss. This category generally applies to trade payables and other contractual liabilities.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. The Group has not designated any financial liability as at fair value through profit and loss

De-recognition of financial liability

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

24. Fair Value measurement

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to Note 46 (d) in for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

D. Use of estimates and management judgments

The preparation of Consolidated financial statements requires management to make judgments, estimates and assumptions that may impact the application of accounting policies and the reported value of assets, liabilities, income, expenses and related disclosures concerning the items involved as well as contingent assets and liabilities at the balance sheet date. The estimates and management's judgments are based on previous experience and other factors considered reasonable and prudent in the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

1. Useful life of property, plant & Equipment

The estimated useful life of property, plant and equipment is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset.

The useful life of assets is determined in accordance with Schedule II of the Companies Act, 2013.

The group reviews at the end of each reporting date the useful life of property, plant and equipment.

2. Provisions and Contingencies

The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events has required best judgment by management regarding the probability of exposure to potential loss. Should circumstances change following unforeseeable developments, this likelihood could alter.

3. Income Taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Group reviews at each balance sheet date the carrying amount of deferred tax assets/liabilities. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the consolidated financial statements.

4. Defined Benefit Plans

The cost of defined benefit plan and the present value of such obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These

include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

5. Impairment test of Financial assets

The impairment Provisions for financial assets are based on assumptions about risk of default and expected loss rates. The group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

6. Leases

The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

The Group revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.
